School Age Professional Endorsement

Available August 1, 2018

The School-Age Professional Endorsement is designed for teachers and administrators working in centers and family child care programs in which school-age children are enrolled and for school-age only programs.

Professionals who have chosen to work specifically with school-age children can use the endorsement as an option to meet Step Up To Quality education requirements. The endorsement requires experience in a regulated ODJFS/ODE program and prescribed coursework specific to working with school-age children.

The School-Age Professional Endorsement will be verified and issued by the Ohio Professional Registry.
